

Excellent opportunity for a new graduate to gain skills and experience in community based rehabilitation. Training available for new graduates for working with soft tissue injuries, complex orthopedic injuries and head injuries. Areas of practice include home based rehabilitation following discharge home from the hospital, active rehabilitation programs in community based gym facilities and work site based services for assisting in returning to work.

In this position you will:

- Provide disability management services
- Design and implement functional exercises programs
- Utilize and supervise rehabilitation assistants or Kinesiologists during implementation of services
- Provide pain management and concussion management services
- Perform musculoskeletal and functional assessments
- Liaise with doctors, various health disciplines, employers and insurance adjusters
- Perform worksite based services including job site visits and return to work plans
- Formulate reports recommending services based on assessment findings

Candidate must have current full registration with the College of Occupational Therapists of British Columbia (COTBC), professional liability insurance and a valid driver's license.

We offer paid training with weekly mentoring from a Senior Occupational Therapist. OT mentoring available during provisional period. Employment incentive up to \$5,000 available for the successful candidate. If you feel you are well suited for this position, please fax your resume to 604-357-1666 or submit your resume via email to [info@infinityhealth.ca](mailto:info@infinityhealth.ca).
